II. EQUIPMENT

II.1 Teaching and Research Laboratories

The teaching computer laboratory contains ten Pentium PCs. The computers are connected to the local departmental Novell network. The laboratory is designed to teach the use of application software products (e.g., MS Word, MS Excel, price estimation, accounting, and economics).

II.2 Special Measuring Instruments and Computers

The Department is furnished with fifteen Pentium PCs. The computers are used for the teaching process and research activities.

IV. RESEARCH TARGETS

- Research of the Relationship between the Economic Effectiveness of Public Works and the Crucial Characteristics of the Public Procuror's Managerial Competence during a Whole Public Work Life Cycle
- Defining Terms such as Industrial Park, Technological Park, Science Park, etc.
- Specifying Non-Stationary Terminology in the Industrial Parks Sector
- Comparing International Experience from the Industrial Parks Sector and Analyzing International Industrial Parks
- Examination of the Impacts of Industrial Parks on Regional Development, Determination of the Institutional Environment of Industrial Parks, and on the Basis of the Research, Preparation of Recommendations for the Development of Industrial Parks in the Slovak Republic
- Classification of the Risks in the Different Phases of a Development Project
- Review of the Possibilities of Statistical Risk Modeling in the Development Process
- Reduction of the Risks in Property Management with the Use of Facility Management Methods
- Investigation of Management Systems in Enterprises and Building Production Organisations and the Conditions for the Application of an Environment Management System (EMS) and a Quality Management System (QMS)

V. RESEARCH PROJECTS

1. Optimal Procedures for Public Works Procurement (VEGA 1/0472/03, 2003, Prof. I. Trávník, DSc.)
2. Economic and Institutional Attributes of Industrial Parks (Vega 1/0483/03, 2003, Assoc. Prof. M. Zúbková, PhD.)
3. Risk Management of the Development Process (VEGA 1/0474/03, 2003, Prof. K. Ivanička, PhD.)
4. Analysis of Economic Conditions for Obtaining the Environment Management System (EMS) Certificate in Building Sector Enterprises (VEGA 1/0473/03, 2003, Assoc. Prof. Palušová, PhD.)

5. Concept of a Study Program for Project Management (KEGA 3/1138/03, 2003, Prof. I. Trávník, DSc.)
